PERSONAL STATEMENT

I am a **highly motivated product designer** with over **2 years experience** in all areas from UX research, visual design to interaction design. I am also **knowledgeable in HTML, CSS and Javascript**. I concluded an internship training in which I was the **assistant team lead of 22 members** consisting of both **designers and developers** in building a live product.

I can be trusted to provide exceptional design work, remotely, while also assisting the business to grow and improve. I am flexible, trustworthy, conscientious and enthusiastic about my work. I can be relied upon to deliver everything I set out to achieve, ensuring that it is completed to a high personal standard and within a given timeframe.
